EXPERIENCE

Adobe x Artcenter Designstorm
Mar 17-19 2026 (3 days)

Product designer
Collaborate with Adobe on exploring the next generation of creative workflows. Developed a concept for a tool that captures designer intent rather than automating execution, positioning AI as a translation layer instead of replacing creativity.

Cedars Sinai
Sep 2025 - Dec 2025

Product designer - sponsored project
Led a multidisciplinary team to design an AI-powered tool supporting community navigators in delivering culturally relevant cancer screening information. Conducted research with stakeholders and translated insights into a system that improves trust, accessibility, and outreach effectiveness.

Tencent
May 2025 - Aug 2025

UX Design Internship
Led end-to-end design on a B2B monetization platform core features for international clients, collaborating closely with product and engineering from research through to shipped product.

Live product

Art Center College of Design
Sep 2024 - Present

Teaching assistant
IXD Graduation Studio: Facilitated critique sessions alongside the department head, providing feedback to graduating students when needed.

Interaction Design 3: Supported instructor to teach the double diamond framework, mentoring students through research and iterative design.

EDUCATION

Art Center College of Design
Sep 2023 - May 2027 (anticipated)

B.S. in Interaction Design (STEM) GPA: 3.92
Built expertise across the full design process. Collaborated with industry sponsors to tackle real-world design challenges.

California Institute of Technology
Sep 2024 - Dec 2024

Computer Science (Exchange Program)
Studied computer science in an AI-forward academic environment, strengthening technical foundations in interaction design and front-end development.
